

The ECU Tiger Charges

Did you know 2005 is the **World Year of Physics** to celebrate Einstein's 3 great papers? Pass the word. For activities in your area go to:
www.physics2005.org

Did you know....

--ECU's SPS received 7 Outstanding Chapter Awards?
---5 ECU students have won national SPS Leadership Scholarships?
---Emily Scott and Tim Claxton were elected Associate Zone Councilors to SPS national council?
---ECU's SPS won a WYP Grant to make a Twin Paradox Video?
---Dr. Williams is ending 4 years as SPS National President?
----What **you** helped get going in SPS still thrives!

Master's Students about to graduate....

April Hendley (hendley@nhn.ou.edu) should graduate with her MS in astrophysics at OU in May '05.

Kristen (Brindle) Taylor should graduate with her MS in medical physics from OUHSC in May '05.

Shenale Glenn (sky_1111@hotmail.com) changed from medical physics to dosimetry but should complete the MS very soon

Emily Scott (lifes_gooood@hotmail.com) should complete her MS from Arizona St. this summer. She teaches at Eufaula HS.

Jarrold Tollett (the_caveguy@yahoo.com) works at Kerr Lab, Seminole State College, and at The Cave and working for masters at ECU in education.

So...where did other ECU physics grads go?

This is as current as I have...some folks we've not heard from.

Jimmy Musgrove (ppc@jandbgraphics.net) works for a large sign company. Calculates wind loads and such on big signs.

Kent Dillin (kjdillin@yahoo.com) is married and working in Stillwater making optically luminescent dosimeters and in grad school.

Ralph Johns (rajohns1@aep.com) is a Plant Operator in the control room at gas fired power plant in Tulsa.

Rebecca (Glass) Foster (foster.rebecca@epa.gov) is married inherited twins, a grandmother and is working again at the Kerr lab in Ada.

Captain Edward Lee Hobbs flies AH-64 Apache's in US Army in Afghanistan. He is married now and has two boys.

Brandon Phillips (Brandon.Phillips@Halliburton.com) received a BS in ME at OSU, works at Halliburton as a field engineer and married in May.

Gregg Frame went to OU in physics grad school, then began working for CH Guernsey engineering firm, and married.

Richard Wilmeth is manager training at Walmart in Lawton, OK.

Monalita Wright is working in industry doing quality control at a firm in Olkmulgee that makes nutrasweet (tm).

Chad Delozier (chaddelozier@cox-internet.com) is working for Walmart in Bentonville, AR as a physicist/programmer.

Kevin Bishop (kbishop@peoplesec.com) who is working at PEC in their CAD dept. He is sitting for his professional engineers exam.

Ed Keeley (KeeleyED@oge.com) is working at OG&E.

William 'Jon' Cloud (William.Cloud@tinker.af.mil) is working at Tinker AFB in logistics and the proud father of a boy.

Chris Grace is currently a golf pro working with Dave Pelz.
